

## Dr. Gabriel Cousens, MD.

Raw Foods Pioneer, founder of the Tree of Life Rejuvenation Center

Dr. Gabriel Cousens M.D., thoroughly checked out the scientific basis of Natural Cellular Defense, he says "'NCD is the most important supplement you'll ever take!'. *It's patented as an anti-cancer agent* and, according to the patent "has a 100% kill rate within 72 hours against...epithelial cell cancers...85% of all cancers are epithelial."

## Dr. Gabriel Cousens talks about NCD

*The following segment was authored by Dr. Cousens from the Tree of Life Rejuvenation Center.*

It is amazing that every year 10.9 million people across the globe are diagnosed with cancer and 6.7 million people die because of cancer. This is about 12% of all global deaths. The U.S. Ranks in the top three countries with the highest rate of cancer in both men and women. This is not an accident. 70,000 chemicals, according to the E.P.A., are used commercially. 65,000 of those 70,000 are potentially hazardous to our health. According to the Environmental Defense Group, more than 4 billion pounds of toxic chemicals are released into [the environment](#) each year, and 72 million of those pounds are known carcinogens.

These cancer-causing agents end up on our air, our water, and our food. In other words, we, like everybody else in the world, are surrounded by carcinogens, and we have to use what we as human beings have used all along for survival: a certain amount of cleverness and thoughtfulness in our lives, to counteract the lack of consciousness that the corporations and ourselves are living with. Different tests on the blood and urine of adult Americans have found a total of 167 compounds, with an average of 91 of these per person. Of these 167 compounds, 76 are known to cause cancer, and 94 are toxic to the [nervous system](#). 82 affect the lungs, 86 affect hormones, and 79 cause [birth defects](#).

In terms of children, unborn babies, for which Gabriel is working to develop a detoxification system for pre-pregnant mothers, the Red Cross has found a total of 287 chemicals in the baby's blood, 180 are known to cause cancer, 217 are toxic to the brain and nervous system, and 208 cause birth defects in animals. Our future generations are explicitly at risk. Wouldn't it be nice to find a simple, natural remedy that can act as a practical antidote for this situation?

Some estimates show as much 25% of Americans suffer from some degree of heavy metal poisoning, the biggest ones being Mercury, Lead, Cadmium and Arsenic. We are exposed to radioactivity as well in a major way. The Chernobyl disaster is just one example of that situation. Immune systems are compromised by lifestyle and by toxic exposure. People are exposed to increasing viral attacks; free-radical buildup from radiation and other toxic chemicals has been seen as one of the causes or contributors to increased [aging](#) and cancer. People are living in an acid environment, of acid thoughts, of acid foods, and an acid lifestyle; people are becoming, obviously, more acid.

In my search for a simple approach to this, I have come across a natural compound called zeolite. Zeolite, in general, has been used for hundreds of years as a traditional remedy throughout Asia to promote overall health and well-being. Zeolite is an alchemical combining of the four elements, air, earth, water, and fire, as the lava earth and fire energy of volcanoes erupted, and the lava and ash poured into the sea. The combination of the ash and the salt from the sea, as well as the lava, caused a chemical reaction, and over thousands of years certain precious minerals like zeolites began to be formed.

A chemist in a small pharmaceutical company in Ohio, was intrigued by the power of zeolites. He researched it and purified it, and found some amazingly powerful effects from it. He was given a patent # 6,288,045 by the U.S. government for this.

I have read the scientific research, the patent papers, and the research monographed by Rik J. Deitsch, a nutritional and research biochemist, who is president of NDA Consulting, Inc., a [biotechnology](#) research group. He is also Chairman of the

Waiora Scientific Advisory Board, and he is in charge of all the research concerning this natural healing substance. After talking with him and reading the literature, it is clear that they may have discovered what seems to be one of the most potent natural preventatives, and perhaps even treatments, for cancer.

In a recently completed preliminary 14 month study, with 65 level four, terminal-stage cancer patients, sent home to die, 51 of the patients, or 78%, experienced complete remissions, (which means complete disappearance of the cancer). It appears to be effective for all forms of cancer, leukemias, and lymphomas.

The mechanism of action is quite interesting for cancer. Theoretically what happens is the zeolites in Natural Cellular Defense, which is a certain structure that is negatively charged, takes in a tremendous amount of positively charged heavy metals, [pesticides](#), and herbicides, therefore having the indirect effect of neutralizing their effect in causing cancer. Then, because of this, the zeolites become slightly positively charged and are attracted to the negatively charged membrane of the cancer cell and are pulled right into the [cancer cells](#).

When the zeolite moves inside the cell, the P21 gene is activated. P21 acts as a tumor suppressor through its ability to control cell cycle progression. The activation of P21 appears to halt the growth of tumors by directly suppressing growth signals. In in-vitro studies, all cancer cells tested were destroyed in 72 hours, which is a claim no other substance has been able to make. The beauty of it, of course, is that there are no side effects because it specifically targets cancer cells.

My primary interest is in cancer prevention, and preparing mothers for a healthy pregnancy. We do not want to ignore the fact of a preliminary study that shows approximately 78% of the terminally diagnosed people with cancer are now in remission. We have to say that zeolite is still in preliminary research. We cannot claim that this is a cure for cancer, but we can certainly look at it as a potent cancer prevention remedy.

In terms of the heavy metals, which are a major, major problem, as well as pesticides and [herbicides](#), furans and dioxins, etc., we can say that zeolite acts to chelate and remove heavy metals, pesticides, herbicides, and other [toxins](#) from the system. It seems to do this in a hierarchical manner. It first acts strongly to remove lead, mercury, cadmium, and [arsenic](#). Once it has removed those from the system, which may take at least one month, it then chelates out, in the second level priority, the pesticides, herbicides, plastics, and so forth. The third priority is it acts as a natural trap of viruses to prevent the production of the viruses.

The way it chelates out the heavy metals as well as the pesticides and herbicides is that within the structure of the zeolite, there are certain cages, inside of which are positive ions. The positive ions switch places with the heavy metals, pesticides, or herbicides, which are also positive ions, and [the cage structure of zeolite] tightly binds them. One of the qualities of this [caged binding of toxins] is that they are 100% excreted; these pesticides, herbicides, and heavy metals do not get deposited in other places in the system; they go out. 40% of it binds the heavy metals in the gastrointestinal tract, and 60% of it binds toxins in the bloodstream and at the cellular level. An additional part of its binding power was also proven at the Chernobyl disaster, where it removed radioactive cesium and strontium-90 from the system, acting primarily as a chelator, allowing those radioactive minerals to be trapped in the crystalline cage structure of the zeolite.

Zeolite also acts as a unique antioxidant in that it does not work like the traditional antioxidants, which act as a way to, in essence, take up the excess free radicals. What it does do, is it simply traps the radicals in its complex structure. It inactivates them and, again, eliminates them from the system. So, it acts complementarily to the traditional antioxidants that absorb the free radicals into their system because they have an unpaired electron.

In addition, zeolite acts as what we would call a local buffer. Wherever it is, it buffers the system towards slightly alkaline, pH 7.35 to 7.45, which is a perfect buffer, for the optimum pH for the human body, that we want. Research has also shown that, in a way that is not entirely clear, it acts to regulate the immune system, either to up-regulate it or down-regulate it according to the situation. This is very important in a world in which most people's immune system is seriously and continually being compromised.

The final role that zeolite plays is as a broad-spectrum [anti-viral](#). What it does in that case is that it blocks virus production. It does this because viruses produce everything in parts, in a production line, and at the end, they put it all together. What zeolite does is that it literally absorbs the viral parts into the "pores" parts seems to be effective for herpes virus 1, cosachie virus B-5, ecco-virus 7, and also adeno virus 5. Gabriel wants to be clear that its effect as an anti-viral is

not immediate, but only seems to happen after you have been on it for about four to six weeks, and the heavy metals, pesticides, and herbicides have been mostly pulled out. It is the third level down in the hierarchy. This, again, is a preventative thing that builds up over time.

One unique thing about this zeolite is that it is considered by the FDA as "completely safe." It is listed on the GRAS list (generally recognized as safe). There does not seem to be any side effect. However, there is a contraindication to be aware of. Because of its natural action to absorb water, it can cause dehydration. Whenever you are taking this it, it is important to drink a lot of water. It is important to drink water before you start taking it to hydrate yourself for several days. It is also contraindicated in medications with heavy metals, such as lithium or with the use of medications with platinum in them.

The general treatment for everyone is 10 drops three times a day, with or without meals. For cancer, 15 drops 3-4 times per day is recommended. Zeolite remains active in the body for a period of six hours, and then needs to be replenished. What I believe we have here is a most unique, natural substance that is formed alchemically way by nature, as a gift from God to help us face our present day health challenges due to with ecological ignorance. In ayurveda, we call it crimes against nature: prajna prat hara. Not only are Gabriel and Shanti taking it, but I feel that it is an obvious thing that everyone who is living in the industrial world should be taking on a regular basis.

Once you have taken 10 drops three times per day for four to six weeks, then you can drop down to 3-5 drops three times a day on an ongoing basis, and upping it when there is a viral attack, chemical exposure, chemtrail exposure, and so forth. This is a gift from God to antidote our very difficult environmental conditions that keep us from being our fullest, healthiest, clearest, joyful, God-merged beings that we are meant to be. This product called Natural Cellular Defense is available at the Tree of Life or, like most unusual products that are useful, has now become distributed by network marketing and can be obtained at a significantly less expensive way if you sign up to be a distributor and distribute it to your family and friends. This is something that everyone on the planet needs to have.

This is different from supplements that generally add to your well-being, but are not necessary. Natural Cellular Defense is simple, elegant, extra-ordinary, and necessary for maintaining healthy living in today's modern toxic world. For more information on the product, its' history and scientific basis, there is an excellent 24/7 recorded call you can listen to at any time at: (973) 854-4665, Option 1.

Dr. Gabriel Cousens blesses you all.

May your health, and joy, and awareness continue to improve as we transform the planet.

You can purchase this product wholesale, by becoming a distributor, through my Waiora International NCD website <http://www.mywaiora.com/1567089> or call (405) 377-3956. The cost, by becoming a distributor, will become obviously less expensive, and will allow you more ability to share it with family and friends. It is a way of sharing a very specific level of good news.
